<b>5. Title of proposed action:</b> Round Valley Rock Mine, M/029/004, Round Valley Rock, Inc.	
<b>6. Description:</b> <p><b>During Operations:</b> No permanent facilities are associated with this operation. Temporary structures include a 500- gallon fuel tank w/secondary containment, and two contractor explosives trailers. The access road was pre-existing and will remain post mining. Prior to new disturbances, soils that can safely be salvaged will be removed and stockpiled for reclamation. Stone is blasted and excavated from the quarry area and hauled to the market. No crushing occurs on site. Fugitive dust will be controlled by application water as needed.</p> <p><b>After Operations:</b> Roads constructed for this operation will be reclaimed by regrading, ripping, topsoil replacement and seeding. Highwalls will be benched and left at a 1h:1v (45- degree) slope. Other slope areas, waste/overburden piles, etc. will be regraded to a 3h:1v slope, contour ripped and/or pitted; topsoil or substitute material will be re-applied (approximate 6- inch depth) and seeded. Substitute soil materials will be amended as necessary with approximately 5- ton per acre of composted manure. The only facility to be left is the pre-existing access road.</p>
